

OFFLINE-FIRST STORE & PHARMACY OS

Never lose a sale to bad internet or power cuts again.

DumosRx is a complete point-of-sale, inventory, and pharmacy management system built for Nigerian businesses — it keeps working at full speed offline, and syncs to the cloud the moment you're back online.

WHAT YOU GET

-  **Fast, Offline POS**
Barcode scanning, split payments, held sales, and receipts — works with zero internet connection.
-  **Pharmacy-Ready**
Prescription tracking and dispensing that automatically deducts stock, with a full audit trail.
-  **Procurement**
Vendors, purchase orders, and receiving that updates stock automatically.
-  **Real Inventory Control**
Batch tracking, expiry dates, bulk import/export, and a full stock movement ledger.
-  **Customers & Loyalty**
Purchase history, store credit, and a configurable loyalty points program.
-  **Reports & Insights**
Daily Close, operational reports, and analytics — from any device, anywhere.
